

KANSAS CITY METRO

****VIP Series, "C" Metros, "C" Nationals
and Fall Classic Tournaments****

VIP - Very Important Players

What is it?

The VIP Series is a series of 5 tournaments; VIP Fall Classics is a series of 2 tournaments and the "C" Heartland World Series tournaments are designed for "participation" or "recreation" teams. A participation/recreation team is defined as any team who participates in an ASA sanctioned league in the Kansas City Area whose activities is limited to their league. These teams normally do not participate in tournaments outside of their league association. Teams outside the KC Metro area and outside recreation leagues will be considered upon proof of their being a recreational team.

Goals:

Our goal is to provide a softball tournament series for the non-competitive teams to participate against other non-competitive teams. Participation/recreational teams now have a tournament to compete in without having to compete against "A" or "B" tournament teams. While nurturing an environment of fun, it also gives an overall tournament experience to the players. Our priority is to provide a fun and lasting experience for the recreational softball player.

It is our intention to spread the tournaments around the Kansas City Metro area when complexes are available. This will give all teams an opportunity to have a tournament at least near by. An attempt will be made to host half of the tournaments in Missouri and half of the tournaments in Kansas for the VIP Series, July 4th and Fall Classics.
